

RADIOLOGY HEALTH EQUITY COALITION

Learn more about becoming a **Coalition Partner**

The Coalition Partner group within the Radiology Health Equity Coalition features **professional radiology societies** (diagnostic imaging, interventional radiology, nuclear medicine, radiation oncology, physics, and other subspecialties under the broad term “radiology”) and **radiology state chapters**. As Coalition Partners these influential, member-driven organizations will:

- Designate a representative to the Radiology Health Equity Coalition who will serve as the liaison for the Coalition Partner and facilitate communication with the Coalition
- Be identified as supporting Coalition Partners on the Coalition web site and in Coalition-distributed materials
- Have access to Coalition content and marketing materials (logos, badges, etc.) for use as Coalition Partner branding
- Contribute financially at Coalition Partner level to fund Coalition programs
- Attend and participate in periodic Coalition meetings and training opportunities
- Provide direct input to Mobilization Team, e.g., identify health equity support opportunities in your communities or areas of radiology
- Share member experiences in addressing health disparities related to their subspecialty or community of practice for amplification via Coalition communications
- Publicly support Coalition statements and positions as approved
- Disseminate and champion Coalition programs and engagement opportunities with their communities

Professional Radiology Society <i>Coalition Partner Membership</i>	
Net Assets	Contribution
Up to \$1,000,000	\$500
\$1,000,001–\$5,000,000	\$1,000
\$5,000,001–\$15,000,000	\$1,500
\$15,000,001–\$25,000,000	\$2,000
\$25,000,000 and up	\$2,500

State Radiology Chapter <i>Coalition Partner Membership</i>	
Membership	Contribution
<300 members	\$250
<999 members	\$500
>1,000 members	\$1,000
